Written Report – Multimedia – Solar News – a news report about Pluto  
Tilly Schammer 0018-032 Annesley Junior School

### Software

My video was created with the iPad app 'Green Screen by Do Ink'. I also used iMovie for some of the editing.

### Bibliography

realestate.com.au  
and facts I already know.

### Problems encountered

I wore a green scarf around my face in my original recording for the weather cross without thinking about the green screen background. Then when we put it in the video my face blended in with the background. We borrowed another green screen from someone at my Mum's work and pegged it on our clothesline to re-record the weather cross section.

### Assistance

I had assistance with filming. My Mum filmed the green screen segments using her iPad. I used the green screen at my Mum's work. I also borrowed a green screen from my Mum's friend. My Mum drew on my moustache. My family helped me write the jingle performed by John Stargazer. My Dad came up with the name of the news reporter, Kurt Enterprise. Lastly, my Mum helped me type the report.
